General Comments :

1. 'Observers' include physicians, trainees, medical students, nurses, industry staff, medical representatives, and other visitors who are NOT affiliated with Massachusetts General Hospital, Partners Healthcare, or Harvard Medical School.
2. While we will try our best to accommodate your requested dates and activities of interest, this may not always be possible due to the high demand for stroke service observerships.
3. Observers are welcome to attend our educational activities. These include the weekly stroke/ICU conferences on Wednesday and Thursday afternoons, Neurology Department Grand Rounds in the historic Ether Dome on Thursday mornings, Neuropathology conferences on Friday mornings, Neuroradiology rounds on Thursday afternoons, Neurovascular conferences on Friday mornings, and monthly Vascular Center rounds.
4. Observers are NOT permitted to participate in direct patient care and are required to adhere to the Hospital's policy on patient privacy and confidentiality.
5. Observers will maintain a log of all stroke service activities attended. At the end of the rotation, we will provide a letter acknowledging the duration of the visit and the clinical activities observed.
6. Appropriate U.S. entry visa is mandatory. If accepted for the observership, we will provide the necessary documents to support your visa application.
7. Housing: Short-term rentals are often difficult to find and can be expensive. Charles River Park, Beacon Hill, Back Bay, North End, and certain areas of Cambridge are within walking distance or accessible by subway. The following websites may be useful:
<http://www.charlesriverparkapt.com/>
<http://www.bostonapartments.com/furnish.htm>
<http://boston.craigslist.org/>

8. Medical students who wish to arrange rotating internships or clinical clerkships at MGH should contact the Registrar's Office at Harvard Medical School:
<http://www.hms.harvard.edu/registrar/fServices/cdex.html>
9. Depending on the duration of their visit, Observers may be required to undergo an occupational health check-up and a security check prior to the start of the visit.
